SUPPLEMENTARY INFORMATION:

The Paperwork Reduction Act of 1995 (PRA), Public Law 104-13, Section 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, 5 CFR Part 1320, require Federal agencies to issue two notices seeking public comment on information collection activities before OMB may approve paperwork packages. 44 U.S.C. 3506, 3507; 5 CFR 1320.5, 1320.8(d)(1), 1320.12. On September 16, 2013, FRA published a 60-day notice in the **Federal Register** soliciting comment on these ICRs for which the agency is seeking OMB approval. 78 FR 56995. FRA received no comments in response to this notice pertaining to the two renewal collections of information referenced below.

Before OMB decides whether to approve these proposed collections of information, it must provide 30 days for public comment. 44 U.S.C. 3507(b); 5 CFR 1320.12(d). Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30 day notice is published. 44 U.S.C. 3507 (b)-(c); 5 CFR 1320.12(d); *see also* 60 FR 44978, 44983, Aug. 29, 1995. OMB believes that the 30 day notice informs the regulated community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983, Aug. 29, 1995. Therefore, respondents should submit their respective comments to OMB within 30 days of publication of this Notice to best ensure having their full effect. 5 CFR 1320.12(c); *see also* 60 FR 44983, Aug. 29, 1995.

The summary below describes the nature of the information collection requests (ICRs) and the expected burden being submitted for clearance by OMB as required by the PRA.

Title: Railroad Communications.

OMB Control Number: 2130-0524.

Type of Request: Extension with change of a previously approved collection.

Affected Public: Businesses.

Abstract: The Federal Railroad Administration (FRA) amended its radio standards and procedures to promote compliance by making the regulations more flexible; to require wireless communications devices, including radios, for specified classifications of railroad operations and roadway workers; and to re-title this part to reflect its coverage of other means of wireless communications such as cellular telephones, data radio terminals, and other forms of wireless communications to convey emergency and need-to-know information. The new rule establishes safe, uniform procedures covering the use of radio and other wireless communications within the railroad industry.

Form Number: N/A.

Total Annual Estimated Burden Hours: 337,717 hours.

Title: Safety Integration Plans.

Type of Request: Extension without change of a previously approved collection.

Abstract: The Federal Railroad Administration (FRA) and the Surface Transportation Board (STB), working in conjunction with each other, have issued joint final rules establishing procedures for the development and implementation of safety integration plans (“SIPs” or “plans”) by a Class I railroad proposing to engage in certain specified merger, consolidation, or acquisition of control transactions with another Class I railroad, or a Class II railroad with which it proposes to amalgamate operations. The scope of the transactions covered under the two rules is the same. FRA uses the information collected, notably the required SIPs, to maintain and promote a safe rail environment by ensuring that affected railroads (Class Is and some Class IIs)

address critical safety issues unique to the amalgamation of large, complex railroad operations.

Form Number(s): N/A.

Total Annual Estimated Burden Hours: 528 hours.

Addressee: Send comments regarding this information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 Seventeenth Street, N.W., Washington, D.C., 20503, Attention: FRA Desk Officer. Comments may also be sent via e-mail to OMB at the following address: oir-submissions@omb.eop.gov.

Comments are invited on the following: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.
